Feed Back on Industrial Visit.

Our college organized an industrial visit to RGC Apparels Small scale industry. on 8/09/25 as a part of our academic curriculum. The main objective of this visit was to help the students to understand the real world applications of the concepts we study in class and to gain practical exposure.

During the visit, we got chance to understand the different sections of process cloth manufacturer. The owner of the Small Scale industry had shared valuable insights, life journey and inspired us to by his journey of setting up the organization.

I had observed the process, I was fascinated by the low cost production of shirt-per shirt the total cost ₹350. there is a huge margin in selling price and cost.

I had gained more practical knowledge on real world application, team coordination, Quality control. I sincerely thank RGC Apparels for the opportunity to experience the industry.

A.N. Vinay.

Feedback on Industrial Visit

The industrial visit to RGC Apparel was a truly insightful and enriching experience. As part of our academic curriculum, this visit provided us with real-life exposure to how a small-scale garment industry operates. Observing the different stages of shirt production, from raw material handling to stitching and quality checking, helped us understand how classroom theories are applied in practice.

The highlight of the visit was the inspiring entrepreneurial journey of Mr. Chandrasekhar, the founder of RGC Apparel. Starting with just 14000 and moving from his village, he overcame major challenges such as demonetization and the COVID-19 Pandemic. With dedication and perseverance, he built a successful business worth several lakhs. His story motivated us to believe in hard work, resilience, and innovative thinking.

I am truly grateful to our college for organizing this industrial visit and to RGC Apparel for giving us such an inspiring and practical learning experience.

SMALL SCALE INDUSTRY VISIT

Feedback.

The industrial visit to RGC Apparels was truly inspiring. Seeing how the garment industry works, making shirts for big clothing brands, gave us a real-life understanding of production processes & business operations. The visit made the concepts we learn in class feel more practical and relatable.

Hearing Mr. Chandrashekar's journey was the highlight. Starting with just ₹400, moving from his village, and facing challenges like demonetization & COVID-19, he built his own successful business worth around ₹3,00,000. His story of hard work, perseverance, and determination was motivating and gave us valuable lessons in entrepreneurship. We are grateful to our college for organizing the visit.
