Kumaraswamy Layout, Bangalore - 560111

Internal Quality Assurance Cell

Bridge & Remedial cell

Cell Annual Report June 2024-May 2025

Bridge Course helps students to make a successful transition into their new academic programs by providing them with the necessary background knowledge about the topics that will be covered in their new courses. In addition, Bridge Courses can also help students to develop the skills and abilities that they need to succeed in their new academic programs.

Remedial Teaching improves each student's skill or ability. Teachers guide students through the educational process using various strategies, such as providing additional practice or clarification, repeating key content, and dedicating more time to developing skills. Many students need the additional assistance that remedial programs may provide. Guide small groups to allow for more individual focus. The objective of the Remedial Teaching Program is to offer learning support to students who are not doing well compared to their peers.
