In this session, the first half of the time was used to explain the importance and benefits of communication and critical thinking. To make this interactive we had an activity where there were four people, An open-minded Manager, close-minded managers, and two regular working employees. This activity produced problems between the employees and it was up to the managers to come up with a solution for the smooth flowing of the company's tasks.

In the second half time of the session, our class was divided into four groups and we were each given a problem statement and as a team we had to come up with around ten solutions and we had to be in a position to explain any aspect of the any issue. This helped us greatly in terms of communication, time management, team work, etc.

Date :- 14/03/2025.

CIL Workshop on 12/03/2025

These report is regarding CIL Workshop attended on 12th March, 2025, the objectives of workshop were focusing on enhancing Students Creative Thinking, Problem Solving & Critical Thinking Skills. The events were held during these workshop where the speaker has divided the class into 6 groups first event regarding Creative Thinking how every group represents there unique skills & group discussion. The second activity was making of making Bridge where teams need to communicate with other teams for raw materials required for making bridge, how to tackle problem which was given. And the last event where from each group was given with a problem & other team has to oppose those decision made by the team presenting. At the end the workshop on Critical Thinking, Problem Solving & Creative Thinking provided participants with essential skill to navigate complex challenges in academic, professional & personal contexts.
