Role of Student in eradication of Drugs

Students as any individual should have proper knowledge about drugs. What is drug? Anything which affects human emotion with producing hormones that affect the emotion and makes individual lose control over the body in that case alcohol should be considered as drug. But why is it so? Mainstream and largely based word said in every corner of India. We have to have proper and proper knowledge about how every drug works and how it affect the body and brain.

The organic drugs such as marijuana etc are used in cancer treatments. But at this point students are addicted to this research and thing which makes them stress free reduces anxiety. But at the same time the health condition and mental health activity and this subjects in severe addition that is very tough to let go. Students has to have clear knowledge about its use and should stay away from them. The organic drugs such as marijuana cocaine etc are notated these gateway from the west and now even in India they are being cultivated and used at large scale. These are very much harmful to our health and brain it directly affect the central nervous system which may result in death. So students have to completely stay away from these substances use which will eventually destroy their health and future. There are highly addictive substances and if a student gets into this it is very difficult to

Topic: Women Empowerment

Women empowerment refers to making women powerful to make them capable of deciding for themselves. Women have suffered a lot through the years at the hands of men. In earlier centuries, they were treated as almost non-existent. As if all the rights belonged to men even something as basic as voting. As the time evolved women realized their power, and on began the revolution for women empowerment. As women were not allowed to make decisions for them, women empowerment came in like a breath of fresh air. It made them aware of their rights and how they must make their own place in society rather than depending on a man. It recognized the fact that things cannot simply work in someone's favor because of their gender. However we still have a long way to go when we talk about the reasons why we need it.

Almost every country, no matter how progressive was a history of "treating" women

Topic: Women Empowerment

Women Empowerment mainly refers to the practice of making women independent and powerful in the society. It is encouraging the women to take their own decisions related to their and being independent in terms of every aspect. Since women have always been the oppressed one in a patriarchal society, the main aim of women empowerment is to help them stand equally with men in every field.

How can we empower women, we can do it through many ways. By educating girl child, by encouraging her to career and passion, by encouraging her to have a life as a man and make her own decisions.

Women Empowerment may also be achieved through government through different schemes like Bet Bachao Bet Padhao, Yojana, Mahila Shakti Karkas, Sukanya Samridhi Yojna, and others. We should also eradicate Child marriage, dowry system, etc to empower women. These actions will improve women's

status in society and help them feel more powerful.

Women are already powerful, but use of women empowerment is to show their power and capability to whole world. Women in older days had fewer opportunities and possibilities to develop their talent and knowledge. Although the world is made by both men and women. But men were regarded as superior in their family. They were decision-makers. Women on the other hand, were believed to take responsibilities of all home chores and child rearing but not making any decisions. But in today's world it is slowly changing even women are encouraged and given equal opportunity as men.

Women now are conquering the life they want. They can be seen in all fields like fashion, technology, management, education, space, sports, and even are emerging as a entrepreneurs. They are changing the perceptions about women by their achievements.
