

## Women Cell Program

### Title: "A Workshop on Gender Sensitization"

Date: 21<sup>st</sup> December 2021

Resource Person:

27-11-2020	Dr.Sumera Aluru Faculty of Dept.Management Studies, MBA-BU
	An activity based workshop on gender sensitivity and compassion for gender issues.
	A Valuable tool for Gender Equity

**Topics Covered:** To inculcate higher order understanding of Gender Sensitivity, its significance, Gender Disparity and How understanding gender differences can help understand self and others.

**Summary:** Conceptual understanding of Gender Sensitivity was provided alongside the discussion about how both genders are different and how we need to comprehend this distinction. Students were made to understand the need for assessing the gender and then the opposite while complementing each other being compassionate with others.

Students could also learn about how to be considerate about their gender and also remain accommodative towards the opposite gender. It is often observed that we find it challenging to understand ourselves and at times others. One of the reasons can be gender insensitivity. Activities conducted proved to inculcate the gender sensitivity among the participants. In fact, the beauty of being human is to remain sensitive to others and their needs.

**Organized by:** Women Cell

**Venue:** MBA-BU 5<sup>th</sup> Floor
