06.02.2023	Dr.O.P.Goel, Advisor (Strategic Partnerships) at National Skill Development Corporation Mr.Ramachandran S, Principal Consultant (lead for engineering, manufacturing, and energy) at Infosys Knowledge Institute.
-------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Topics Covered: Value Centric Education and Neoskilling

Summary:

Dr. Goel had delivered a talk on value centric education wherein he focused on the way teachers have to make the content delivery in the class room in a distinct manner so that it becomes not only interesting but also improves the retention capacity of the learners. He strongly advocated that industry and academia can together make a big difference in augmenting the employability of students. Students were enriched with the knowledge shared by the speaker on the occasion that how remaining grounded to values will make them excellent professionals.

Mr.Ravichandran S spoke about the concept of neoskilling. A significant point to ponder in his address was – VUCA world demands an entirely new set of skills to be mastered by students. The learners got largely benefitted with the insights provided by the speaker when he not only enlisted the neoskills but also outlined the process of nurturing those skills. Socio-emotional adaptability was well taken and appreciated by the audience. He did highlight how Infosys Knowledge Institute is contributing to the purpose of neo skilling.

The event was graced by Ms.Tintisha H Sagar, Joint-Secretary, DSI and Sri. Galiswamy, Secretary, Joint-Secretary, DSI.
