

“Dynamic Web Programming” on 16/03/2021:

A webinar on Dynamic Web programming was organized by MCA Department to enhance the web knowledge of the students on 16th March 2021 between 2 to 4 in the afternoon. Dr . Geetika Vyas and Prof. Ruch Nanda delivered the webinars in Gimp tool and JavaScript, Dom, Bom respectively. Dr.Ruchi Nanda explained the basic concepts of JavaScript and Document Object Model and Browser Object Model. She explained the form validation using DOM and how the browser can be manipulated using BOM. The session was concluded by question-and-answer session. The second session started at 3 by Dr.Geetika Vyas. GIMP 2.10 tool was explained and detailed demo was given by using an image as an example. The session concluded with question-and-answer session and also students also named similar tools as Gimp.
