The CIL program was truly refreshing and practical experience. Unlike typical lectures, this session on communication and soft skills was highly interactive which kept everyone engaged from start to finish. I particularly enjoyed the group discussion and teamwork activities; they really pushed me to step out of my comfort zone and speak more confidently infront of others.

The facilitator did a great job of breaking down the importance of body language and active listening in a way that felt easy to apply. I feel much more prepared now to present myself effectively in a professional setting. Overall, it was a incredibly useful session that successfully turned learning into fun, hands on-experience
