18.	Report sent to media? If yes, give details:	No
19.	Report uploaded in Social Media?	Yes
20.	Certificates Printed?	NA
21.	Feedback Collected?	Yes
22.	Attendance Sheet Attached? #	Yes
23.	Summary of the Event	<p>The Department of Computer Applications (MCA) organized a presentation on the critical topic of global warming, aiming to raise awareness about its far-reaching impacts. MCA student M. K. Jashwanth highlighted the causes, including greenhouse gas emissions and deforestation, as well as their consequences, such as rising temperatures, melting ice caps, and extreme weather events. Innovative solutions like renewable energy, reforestation, and sustainable practices were discussed, encouraging proactive measures to combat climate change. The presentation inspired students to adopt eco-friendly habits and contribute to preserving the planet. It was an insightful event that emphasized the importance of collective action for a sustainable future.</p>

Feedback on Global warming

The session on global warming was really a good presentation for bringing a awareness about the effectiveness and impact on the environment. The consequences of global warming are profound and far-reaching. These changes can lead to food and water shortages and increased health risks.

For reducing the global warming we requires collective action at both individuals and government levels, such as reducing carbon footprints and promoting sustainable practices. It's crucial for students and future generations to engage in discussions and actions that contribute to a healthier planet.

Esha. G.B
