14.	Total Expenditure	69,804/-	15.	Sponsors and Amount (if any)	NA
16.	Agenda of the Event	2 – Day Agri - Hackathon Schedule Attached.	17.	Provide the link of the report uploaded on College Website	No
18.	Social Media Links		19.	Report sent to Newspapers? If yes, provide cuttings/images:	No
20.	Certificates Printed?	Yes	21.	Feedback Collected?	Yes
22.	Attendance Sheet Attached?*	Yes	23.	Photographs of the Event	Attached
24.	Summary of the Event	The Department of Computer Applications – MCA, DSCASC, in collaboration with ICAR-KVK and Samasti Foundation, was proud to host the district-level Agri-Hackathon 2025. This event marked a unique platform for computer science students to explore the intersection of Agriculture and Artificial Intelligence, solve real-world agricultural challenges using AI-powered solutions, demonstrate creativity in coding, design, and innovation and win exciting prizes and exclusive offers! Participants tackled meaningful agricultural problems using the power of AI, showcased their coding, problem-solving, and design skills, gained exposure to real-world challenges in the agri-tech sector, networked with experts from both tech and agricultural domains and of course won prizes, internships, and recognition. The hackathon was conducted on 15th and 16th October 2025 . Day 1 : The resource persons and experts from KVK and Samashti Foundation Mr.Loganandhan, Ms.Soumya Pattar and Ms.Sudha Sundavradhan unveiled the Problem Statements in the presence of Principal Dr.Balu L, Vice Principal, Prof.Hmanth Uppala, Deputy Director Prof.Dr.Kumuavalli and other Dignitaries, Directors and HODs. After the formal session at the Board Room, the participants assembled in the seminar hall and Mr.Loganandhan and Ms.Soumya Pattar explained the problem statements and answered the queries regarding the creation of AI agents. It was a great session where lot of brain storming happened. The session was followed by lunch at Lotus. Day 2 : The participants had to assemble in the respective rooms for presentation and demo of their AI agent. Each team of 2 members had come with their AI agent and presented their work in front of the jury members. The teams had the freedom of choosing any one of the problem statements. Judgement was carried out based the criteria like Creativity, Accessibility, Sustainability, technicality etc. Overall Top 5 teams were selected for the prizes and 5 teams based on their AI agents and models were offered internship at Samashti Foundation. The Agri Hackathon was a great success and paved the way for future hackathon programs to be conducted by the department.
