### Innovative Teaching

Class: I M. Com

31.1.2025

Faculty: Dr. Monica Ranka

Subject: Principles and practice of Business decision

A chart presentation is a visual way to display data or information using charts. Charts are graphical representations that can simplify complex information and make it easier to understand, compare, and analyse. Visual elements like charts can make presentations more engaging and interesting, helping to hold the audience's attention.

Keeping this view in mind, Chart presentation was done on 31<sup>st</sup> January, 2025
