**Event: Environment Awareness programme**

**Date: 14-09-2019**

**Conducted in school**

Under the guidance of **Internal Quality Assurance Cell, EcoClub- Prakruthi** organized an “Environment Awareness Programme in school” on Sep 14<sup>th</sup> 2019 to spread awareness of various environmental issues in our daily life which were created due to human activities and ban of Plastic and Polythene usage.

The main objective of the event is to enhance knowledge, and to promote the causes affected due to the usage of plastic bags and tiffen boxes in our daily life.

As part of Eco club 45 Students of DSCASC, actively participated in this awareness event. We visited the school named “Sri Annamma Devi Vidya Mandira”, 1<sup>st</sup> Stage BDA Park, Kumaraswamy Layout, Bangalore. around 11 Am.

The school principal named Prof Dhananjay.N Welcomed our students and supported to conduct an awareness event to school students.

Students were assigned to handle individual classes from class I to IX to conduct the activity. The awareness event includes debates, quiz competitions, rhymes,

songs, power point presentations etc; During the event, our students encouraged the winners by giving some gifts. All the kids were energetic, enthusiastic and eager to listen the concepts.

Faculty coordinators guided students to prepare the charts and power point presentations based on the causes affected due to the usage of plastic and polythene. They also concentrated on the importance of aquatic life and tree plantation. The presentations were based on total surroundings of a living organism which provide conditions for development and growth as well as of danger and damage.

At the end of the session our students played some animated videos related to plastic usage and the harmful affects to environment by throwing the plastic bags in rivers.

Kids were very interactive during the session. They gained knowledge to save the nature, not to harm the nature and use only green products. Chocolates and pencils were distributed to kids for their enthusiasm.

At the end Principal Prof. Dhananjay interacted with our students and raised some questionnaires related to their interests in social service and their goals. We had a great and positive response from the school kids, staff and Principal who supported us for the entire programme.

Total Participants: 300

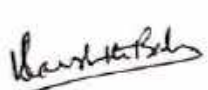

Faculty Participants: 6

Student Participants: 294
