Q4.	The courses that you have learnt suit the requirements of the industry.	3	7	6	12	3
Q5.	The syllabus is need based and emphasis is laid on the coverage of both fundamental and advanced topics.	8	5	5	11	2
Q6.	The course content delivery is interesting and industry relevant.	7	5	6	10	3
Q7.	The curriculum enabled you to develop your overall personality.	6	7	7	9	2
Q8.	The overall learning experience has been useful for your career.	6	7	7	10	1
Q9.	The curriculum has enabled you to build your future career.	7	5	5	9	5
Q10.	The academic initiatives taken by the college, bridge the gap between Industry & Academia	5	6	6	11	3

**Suggestions (if any):**

- It would have been better if college had arranged more industrial visits, which enables the student to have industrial exposure
- Instead of organising lectures delivered by working professionals & entrepreneurs, it is advised to make students undergo internship mandatorily every semester.

Number of students responded: 32

Sl. No	Particulars	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
Q1.	Curriculum meets prerequisite and basic knowledge required for the career.	1	0	3	20	8
Q2.	Courses are well-structured to achieve the learning outcomes (good balance of online lectures, learning resources, practical in pre and post lockdown for pandemic)	1	1	2	11	17
Q3.	Expectations from the curriculum have been met in offline and online modes.	1	0	3	13	15
Q4.	The courses that you have learnt suit the needs of the industry.	2	3	5	15	7
Q5.	The syllabus is need based and emphasis is laid on the coverage of both fundamental and advanced topics.	2	1	3	19	7
Q6.	The course content delivery is interesting and industry relevant.	0	3	5	16	8
Q7.	The curriculum enabled you to develop your overall personality.	0	3	1	16	12
Q8.	The overall learning experience has been useful for your career.	0	3	3	17	9
Q9.	The curriculum has enabled you to build your future career.	0	3	3	15	11
Q10.	The academic initiatives taken by the college, bridge the gap between Industry & Academia	1	0	5	17	9

### Suggestions (if any):

I work as a Solutions Architect in a Product Based Cyber Security Firm. It would be great if the students get the exposure to linux operating systems, basic python, bash shell scripting, virtual network lab setups for understanding of low level networking, firewalls, proxy, docker. For backend developers - GitHub, Python/Django, MySQL, Elasticsearch, Redis, Celery. DevOps - AWS, GCP, Azure, Ansible, Chef, puppet and other Automation tech stack..

Need to change the syllabus and need to teach all the new technologies. Syllabus was outdated

**Suggestions (if any):**

In todays market.. one is not ready with just syllabus... He has to be active and smart as well... One should know where, what and how to speak.. curriculum is just the base of the building.. but the roof must also be strong for the building to be built further..

So please focus on extra curricular too..

Q10.	The academic initiatives taken by the college, bridge the gap between Industry & Academia	8	11	18	23	2

**Suggestions (if any):**

- (1.) Introducing more research-based learning experience relevant to Industry and by the Industry people creating live projects and working on real time day to day problem solving.
- (2.) More emphasis should be given on practical rather than the theoretical aspect on learning.
- (3.) Discussion or technical conferences should be held on latest technology trends so as to stay updated with the industry
