IQAC initiatives 2022-2023

The final year of NAAC cycle 4, 2022–2023, saw a lot of IQAC initiatives. The past two years prior, 2021–2022, and 2022–2023, saw an enormous amount of activity. In the current year, we have concentrated more on challenging areas. Numerous research papers, extension services, and NSS activities were seen. Institutional research funding to the faculty initiated to promote the research skills. The MBA department completed all the necessary paperwork to affiliate a research centre with the Bangalore University. Additionally, we have widened certification programs for staff and students. The students received university ranks denoting the effectiveness of its teaching and learning processes. Innovative teaching methods are used with students to help them expand their conceptual comprehension. As a result of the intake and admission numbers being equal, the demand ratio likewise grew. Annual growth in library use has reached 40% in the current year. Increased internet speed and adequate budgets are set aside for NAAC, departments, and sports events, among other things. The different initiatives for teacher and student capacity building have been greatly expanded. Comparison to prior years shows an improvement in student progression and alumni engagement.

Along with the activities mentioned above, IQAC also held regular stakeholder surveys, a survey of student satisfaction, and sporting, cultural, and technical events.
