PART-A

1. Explain the security threats that exist in wireless networks?
2. Write the difference between cellular networks & AdHOC Networks?
3. What are the major challenges existing protocol faces in AdHOC Networks?
4. Explain the wireless sensor networks with its issues compared to adhoc networks?

PART B

5. a) Mention any five design goals of a MAC protocol of AdHOC networks?
b. With a neat diagram explain hidden & exposed terminal problems in wireless networks?
6. With the frame format explain HOP reservation multiple access protocol
7. Define self reservation. Explain self recovery on multiple access with priority assignment using frame structure
8. Briefly explain the five phase reservation protocol with frame structure.
