3.2.1: Institution has created an ecosystem for innovations, Indian Knowledge System (IKS), including awareness about IPR, establishment of IPR cell, Incubation centre and other initiatives for the creation and transfer of knowledge/technology and the outcomes of the same are evident

In the rapidly evolving landscape of today's world, fostering transformation and the effective transfer of knowledge has become paramount for Institutions across various sectors. One such Institution that has successfully created an ecosystem for transformation and knowledge creation is Dayananda Sagar College of Arts, Science and Commerce.DSCASC has developed an ecosystem for cultivating a culture that values creativity and entrepreneurship. This institution recognizes that transformation can only thrive in an environment that encourages experimentation and risk-taking. The Institute employs innovative pedagogical methods that encourage students to engage in research and knowledge creation from the early stages of their academic journey. These methods includes industry academia connect through series of Guest lectures, programs by CIL (Centre for Innovative learning), project based learning which enable students for their holistic development.

On a regular basis, the students are counselled and guided by industry experts, alumni and start up masters. Awareness programs are conducted to ensure the current trends, the skills and technologies that they need to master. Knowledge creation and transfer are fundamental aspects of DSCASC. The institution has established a robust research culture that actively encourages faculty and students to engage in cutting-edge research that contribute to both the Institution and the broader society.

 Furthermore, DSCASC hosts regular Faculty development program, workshops that are open to the public. These events provide a platform for thought leaders, researchers, and industry experts to share their insights and discoveries. In addition to fostering knowledge sharing, these events serve as networking opportunities for students and professionals, further enhancing the ecosystem for innovation.

In recent years DSCASC has also adopted modern technology to enhance knowledge transfer. Online courses, webinars, and digital repositories have made academic content

accessible to a global audience. This democratization of knowledge is in line with the institution's commitment to spreading innovation and ideas far and wide.

The institution's commitment for knowledge transfer extends to its outreach programs as well. The institution actively engages with local communities and participates in outreach initiatives to address real-world problems. This not only demonstrates its dedication to societal betterment but also provides students with practical experience and a platform for applying their knowledge in a meaningful way.

In conclusion, DSCASC has developed a thriving ecosystem for transformation through a combination of a culture of creativity, interdisciplinary education, and robust research initiatives. Institution has successfully facilitated the creation and transfer of knowledge through partnerships, knowledge-sharing events, and the use of modern technology. By nurturing innovation and emphasizing the importance of knowledge dissemination, DSCASC has become a leader in driving positive change in its community and beyond.
